# Welcome to the SeceuroShield range of physical security products

SeceuroShield physical security products have been protecting properties since 1985.

Although often overlooked, securing your property provides peace of mind by protecting the things that matter most to you, whether that's your home and family or your business and consequently your livelihood. With so much choice, choosing a security product that most suits your needs can seem like a daunting task but SeceuroShield industry leading products address all requirements and are manufactured, supplied and installed by industry experts who are there to offer advice and guidance beginning with your initial enquiry through to installation and after care.

Besides securing your property, many SeceuroShield products offer other benefits such as insulation and sound proofing, ventilation, or increased advertising space for your business by use of special graphics.

The emphasis behind our range of shutter and gate designs is on integration into your building and way of life; unobtrusive, attractive and easy to use. Proudly manufactured in the UK and installed to complement the look of the building, SeceuroShield products ensure they are effective and secure in daily use.

All products are supplied and installed through your local approved distributor who will be able to offer expert guidance and advice to ensure a tailor made solution.

## All SeceuroShield products are:

- ✓ Made to measure for a tailor made security solution
- ✓ Manufactured in the UK
- ✓ CE Marked – Investing in a CE marked product means you are purchasing a product that is fully compliant with all European directives
- ✓ Designed to integrate security seamlessly into a building
- ✓ Approved LPCB and Secured By Design products available

# Versatile security

Security facts – did you know...

*"The goal of physical security is to convince potential attackers that the likely cost of attack exceeds the value of making the attack in the first place."*

Wikipedia

*"Crime costs businesses **£19 billion** annually."*

British Chamber of Commerce

*"Every **37 seconds** a house in Britain is burgled."*

*"Retail crime cost **£14 billion** in 2011."*

*"Prevention is always better than cure. **Always Deter, Delay, Detect, Deny.**"*

## Need some guidance?

See our Product Matrix on **Page 6-7** for more information.

## Protecting What's Important to You

# Retail

Because security doesn't have to be ugly.

### What I need:

- I need to protect my premises outside of opening hours by deterring opportunist thieves and vandals
- My products still need to be visible to potential customers, even when my business is closed
- I need to protect my premises but the local planning laws have a very strict rules on shutters is there anything else
- I have a specific corporate colour and brand that I would really like to be seen 24 hours a day

### SeceuroShield has a solution

The 2009/2010 Retail Crime Survey carried out by the BRC reported a significant reduction in criminal damage compared to recent years with the reduction being largely attributed to retailers considerable investment to protect their businesses better. With the help of the SeceuroShield range these statistics can only become better – prevention is always better than cure.

High street or retail park, independent or multiple, crime prevention is a necessary consideration for all retailers. The SeceuroShield range of security takes the guesswork out of the security requirements for your premises. Let one of our approved distributors talk you through the options that meet your requirements so you can be safe in the knowledge that your premises are protected.

### Retailer Choice

- ✓ LPCB approved and SBD products available
- ✓ Available for both internal and external installation
- ✓ Vision available
- ✓ Electric or manual
- ✓ Built-in and built-on options
- ✓ Colour coding and branding options
- ✓ Best advice from your local experts

# Public Sector & Business

It's our business to protect yours.

## What I need:

- I don't want it to look unwelcoming when the security is in operation
- I have high value products at ground floor level that I need to protect
- I need easy operation of everything at the touch of a button
- I need to be able to darken a room to provide a projected presentation effectively
- I need the flexibility to lower shutters from my desk to stop glare from the sun on my computer screen
- I need shading with shutters that can reduce our use of air conditioning in the summer

## SeceuroShield has a solution

With a wide variety of security solutions, we make it our business to protect your business. The SeceuroShield range offers the widest variety of options available in one place, allowing us to fulfil your physical security needs without compromise. Whether you're in the public or business sector,

we know that no two requirements are quite the same.

Designed and manufactured in the UK, each solution is made to measure so it's an exact fit for you. A professional survey by one of our approved local distributors will allow them to assess your specific needs and present the selection of options available in an easy to understand format. SeceuroShield has the solution.

## Public Sector & Business Choice

- ✓ LPCB approved and SBD products available
- ✓ Available for both internal and external installation
- ✓ Electric or manual
- ✓ Insulated Shutters to provide shading
- ✓ One touch control
- ✓ Supplied and Installed by your local expert
- ✓ Colour matching for seamless integration
- ✓ Built-in and built-on options available

## Secured by Design

Secured by Design is the official UK Police flagship initiative supporting the principles of 'designing out crime' by use of effective crime prevention and security standards for a wide range of products and applications.

Only products which have been tested and meet the required technical standard can be awarded the Police Preferred Specification.

## Insurance approved security

The rigorous LPS 1175 burglary resistance standard is operated by the Loss Prevention Certification Board (LPCB). LPCB are the UK's leading independent certification body and the LPS 1175 standard is recognised and endorsed by 16 organisations including the Association of British Insurers and the Association of Chief Police Officers.

For more information on the scheme refer to:

[www.brecertification.co.uk](http://www.brecertification.co.uk)

## CE marking

Learn more about the importance of conformity and CE marking on **Page 20**.

SeceuroShield 38 (Built-in)  
Blue Finish

SeceuroShield 3801  
Green Finish

Secure as standard.

The SWS UK Security Shutter range has been developed to provide an architecturally acceptable answer to the growing need for vandalism and burglary protection on domestic and commercial property. SeceuroShield is pleased to be the most comprehensive range of shutters available within the physical security industry.

### Investing in SeceuroShield means you are investing in:

- ✓ UK designed, manufactured and assembled products
- ✓ A name you can trust with all products CE marked and compliant with the latest European product directives
- ✓ A selection of products tested to LPCB Level 1
- ✓ A choice of built-in and built-on products
- ✓ Wide choice of colour and finishes including graphics to make the shutter unique
- ✓ Choice of operating functions both manual and electric
- ✓ Approved local distributors offering onsite expertise and installation
- ✓ A peace of mind warranty

Insurance approved security  
shutters tested to Loss

Prevention Standard  
1175-1 (LPS 1175-1).

Unlike other certificated shutters, SeceuroShield 3801 (tested and approved to LPS 1175-1) uses a 38 mm double-walled extruded aluminium slat, which coils very tightly into a range of compact boxes (165 mm-250 mm), minimising their visual impact. This is often a requirement for commercial and domestic installations where aesthetic considerations are paramount. Although supplied in either white or brown as standard, they can be powder coated to reflect corporate colours if required.

- **Versatile** – Fits internally or externally in either the window reveal or around the opening
- **High quality finish** – Supplied in high quality white or brown powder coated finish as standard. Optional colours available – ask for selector chart
- **Secure** – Locking is provided automatically from the motor and manually operated bottom rail key locks or bullet locks to the side guides
- **Compact** – Housings from 165 mm-250 mm dependent on shutter height
- **Ease of use** – SeceuroDrive Tubular motors and control systems provide electric operation as standard (ask for details on motor control options)

### Choose me if:

- ✓ You are looking for security without compromise
- ✓ You require electrically operated security shutters
- ✓ You are looking for an attractive solution which can be blended in to the look of your home or business
- ✓ The overall width is not greater than 3000 mm

SeceuroShield 7501 (Vision)  
White Finish

SeceuroShield 38  
Brown Finish

## **SeceuroShield | 7501** Insurance Approved Security Shutters

A variant on the traditional shutter, available as both solid or vision.

- Tested and approved to Loss Prevention Standard 1175-1
- Available as solid or perforated
- Strong single skin galvanised steel profile
- Delivers up to 25% vision (when back lit)
- Medium security office / commercial / industrial applications
- Spans widths up to 6000 mm
- Can be powder coated any RAL / BS colour
- Flexibility to mix solid and vision slats together when only partial vision is required
- Will reverse coil if required (will increase coil size)
- Manufactured with aluminium head box and guides for higher grade applications and easier installation, also available with traditional galvanised steel channels and head box

### Choose me if:

- ✓ You need security tested and approved to LPS 1175-1
- ✓ You require vision without compromising on security
- ✓ You need a shutter which can be powder coated to blend in with your business's exterior
- ✓ The overall width is not greater than 6000 mm

## **SeceuroShield | 38** Built-On Security Shutters

Our best selling security shutter.

- Strong extruded aluminium curtain profile
- Medium security applications
- Spans widths up to 4000 mm
- Can be powder coated in special colours if required
- Can be mixed with SeceuroVision 38 where partial vision is required
- Can be fitted both internally and externally
- Available as built-on or built-in
- Available with radio motors offering smart group and individual control
- Available with custom graphics and logos

### Choose me if:

- ✓ You want to blend your security solution into your surroundings
- ✓ You have a medium security application
- ✓ You want to choose between manual and electric operation
- ✓ You are a new build wanting the most integrated seamless system available
- ✓ You want wireless control

## SeceuroGuard | 1000

Retractable Security Gates

### The original retractable security gate.

Elegant good looks with a heart of steel – the SeceuroGuard retractable security gate system combines a classic appearance with a high level of protection, ideal for your home or workplace.

Designed to keep intruders out while letting maximum light in, they are perfect for vulnerable ground floor windows on doors, for domestic, retail or commercial premises.

When not in use these retractable gates are surprisingly unobtrusive. Fitted to the door or window surround, they can disappear neatly behind curtains and a pelmet can be used to conceal the top track.

SeceuroGuard retractable gates are exceptionally safe and easy to handle with a smooth, quiet operation. They hang from a top track with a guide track at the base which can be supplied as an optional extra to quickly fold away when not required.

- Exceptionally strong security barrier
- Galvanised for corrosion resistance and powder coated
- Fully retractable system
- Excellent through-vision when locked
- Multi-point locking from a single key
- Smooth running carrier system
- Custom built for any opening
- Quick and easy to use
- Can be fitted with a locking post at both ends to provide maximum flexibility of operation
- Where access is not required, a fixed sash option is available
- An unlimited width can be accommodated in sections

#### Ideal for:

- ✓ Retail premises
- ✓ Fitting in front or behind glass
- ✓ Offices
- ✓ Commercial premises
- ✓ Domestic properties
- ✓ Where a lower cost manual option is required

SeceuroGuard 1001  
White Finish

## **SeceuroGuard | 1001** Insurance Approved Retractable Security Gates

High security tested to Loss Prevention Standard 1175-1 (LPS 1175-1).

The SeceuroGuard retractable gate system combines a classic appearance with effective protection, ideal for the home or workplace. The high security 1001 is tested and approved to LPS 1175-1. The system can be easily fitted to the face or reveal of a window or door aperture and can be specified in a single or double-sash configuration. Where a clear walk through is required SeceuroGuard's bottom track can, as an optional extra, be made to fold up.

- **Versatile** – Fits internally in either the window reveal or around the opening in either single or double-sash configuration
- **Ease of use** – Smooth top running operation with an optional extra of a fold up bottom track to leave doorways unobstructed
- **Secure** – Multi-point locking operating from a single key
- **High quality finish** – Supplied in high quality white powder coated finish as standard

Optional RAL colours available on this and many of our security products:

# Open Link Vision

## Aluminium Tube & Link

Applications: Shop Fronts / Retail Units / Supermarkets / Shopping Centres / Hospitals / Market Stalls / Pharmacy's / Car Showrooms / Office Premises / Leisure Centres / Banks

Ideal for installations where the closure interferes only marginally with vision, ventilation and light. Used extensively on internally Applications. The SeceuroVision Aluminium Tube & Link Manual Operated spring & lock operated is an ideal solution where vision is paramount.

# Polycarbonate Vision Shutters

**Material:** Made of high-quality polycarbonate panels. Polycarbonate is a durable and impact-resistant thermoplastic material known for its strength and transparency.

**Panel Thickness:** Typically available in various thicknesses, such as 3mm, 4mm, or 5mm, depending on the desired level of durability and insulation.

**Construction:** The door consists of interconnected horizontal panels that roll up and down along vertical tracks, operated manually or electrically. Dimensions: Available in standard sizes or customizable to fit specific openings. Common widths range from 800mm to 5000mm, and heights from 1000mm to 6000mm.

**Color Options:** Can be transparent, translucent, or opaque. Transparent options allow natural light transmission while maintaining security, whereas opaque options provide privacy.

**Operation:** Can be manually operated using a crank or chain mechanism, or motorized for automated operation with options for remote control or integration with building management systems.

**Security Features:** Designed to provide protection against intruders, vandalism, and harsh weather conditions. Some models may include reinforced panels, locking mechanisms, and bottom rails to prevent forced entry.

**Insulation:** Provides thermal insulation properties, helping to regulate indoor temperatures and reduce energy costs. Insulated versions may feature double-layered polycarbonate panels with air gaps for improved thermal efficiency.

**Weather Resistance:** Resistant to UV radiation, corrosion, and extreme temperatures, making it suitable for both indoor and outdoor applications.

# Reasons to Choose SeceuroShield

## ✓ A name you can trust

When buying a SeceuroShield shutter you can be reassured by the values behind the name.

## ✓ Expert advice

With a local expert on hand you can be confident in choosing a product that suits your needs and provides a seamless finish to your property.

## ✓ Manufactured in the UK

Using the latest machinery and equipment, all SeceuroShield security products are proudly manufactured and assembled in the UK.

## ✓ A solution for everyone

With so much choice SeceuroShield security products can accommodate almost any requirement. Whether you need a built-in or built-on solution, solid or vision or need security on a small budget.

## ✓ Engineered to perfection

Through continuous development and specialist engineering, SeceuroShield security products offer unrivalled quality and the most advanced specifications.

## The importance of conformity and CE marking

To comply with the Machinery Directive both the shutter and the motor and controller used in the installation must have a **Declaration of Incorporation** from the manufacturer.

On completion of the installation the installer must provide a **Declaration of Conformity** and apply a CE mark giving details of the installation to the shutter / motor and controller combination, which is now classed as a machine.

The installer must issue to the customer a Declaration of Conformity, maintenance and operation instructions on the completion of the installation.

The installer must hold copies of both the Declaration of Incorporation and the Declaration of Conformity on a technical file for inspection by the relevant authorities.

If any of the above requirements are not fulfilled the Installation is illegal.

Please ensure for your own safety and peace of mind that whoever installs your electric motor and controller is both willing and able to fulfil these requirements; if they are not – do not use them.

As a member of the DHF we CAN and WILL install your motor and controller safely and legally.

# Peace-of-Mind Warranties

All SeceuroShield products are guaranteed against defect of material or workmanship by, subject to correct installation, maintenance and operation, for a period of one year from the date of purchase. The SeceuroDrive Motor carries a 5 year guarantee.
